Professional Summary

Ambitious student with a solid foundation in finance, data analysis, and programming, seeking an internship at Goldman Sachs. Skilled in Python, Excel, and SQL, with experience in analyzing datasets, creating visualizations, and solving business problems. Eager to apply analytical skills in a fast-paced environment, contribute to impactful projects, and grow my technical and financial expertise.

Education

Indian Institute Of Information Technology, Dharwad

Bachelor of Technology in Data Science and Artificial Intelligence

GPA: 8.71 (Till Fourth Sem)

2022 – Current

Dharwad, Karnataka

Surendranath Centenary School, Ranchi

Class XII

Percentage: 91%

2022

Ranchi, Jharkhand

Surendranath Centenary School, Ranchi

Class X

Percentage: 91%

2020

Ranchi, Jharkhand

Relevant Coursework

- Problem Solving Through Programming
- Data Structures
- Data Science and AI Applications
- Design Analysis and Algorithms
- Object Oriented Programming
- Discrete Mathematics
- Software Engineering
- Database Management System
- Operating System

Projects

Adidas Market Insights using Adidas Dataset

November, 2023

Used TABLEAU to unveil the intricacies of Adidas sales in the USA.

The analysis of the dataset highlights a strong preference for in-store purchases, coupled with consistently robust operating profit margins.

The key performance index offer valuable insights for optimizing marketing, distribution, and inventory management, but also underscore the challenges of forecasting in the dynamic U.S. market.

Deezer Dataset Analysis

July 2023

Experimented with dataset for finding different properties using algorithms which presents an analysis of friendship networks and genre preferences among users of the music streaming service Deezer in three European countries. That data used for finding different properties of dataset through different algorithms.
